Wilson Anchor Bolt Sleeve Distributor

Overview: The Wilson Anchor Bolt Sleeve is used as an in-place form to provide a grout pocket around an anchor bolt and is used to form a pocket into which a bolt may be grouted or allow the bolt to stretch properly. Additionally, the Wilson Anchor Bolt Sleeve is used where metal pipe is unacceptable due to rusting or costs. Bill Spitzer & Associates is an authorized distributor of this patented bolting technology and can assemble the correct sleeve, washers, and bolts for your project. This product solution reduces costs, schedules, and alignment issues for bolts in the food and beverage, heavy and light manufacturing, civil engineering, pulp and paper, power generation, petrochemical, and oil & gas markets.

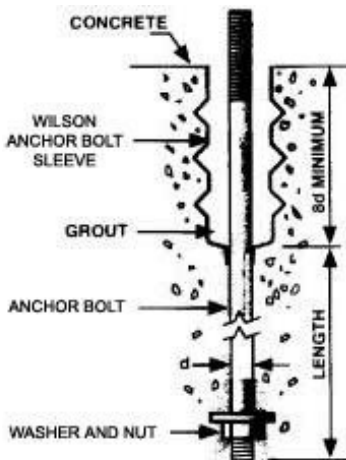

Benefits:

- Lightweight
- Lock-In-Place Technology
- Easy to Use
- Superb Pullout Strength
- Non-Rusting
- Non-Conductive
- No Welding Necessary
- Self-Threading Design

Bill Spitzer & Associates can assemble our tension monitoring bolts, multi-jackbolt tension bolts, spherical washers, and other unique bolting solutions with the Wilson Anchor Bolt Sleeve for a complete solution for your application, need, or market.

Item	Description	Shell Size	Count
A-625	5/8" Anchor Sleeve	2" x 7"	90 per box
A-750	3/4" Anchor Sleeve	2" x 7"	90 per box
A-875	7/8" Anchor Sleeve	2" x 7"	90 per box
B-1000	1" Anchor Sleeve	3" x 10"	35 per box
B-1250	1 1/4" Anchor Sleeve	3" x 10"	35 per box
C-1500	1 1/2" Anchor Sleeve	4" x 15"	12 per box
C-1750	1 3/4" Anchor Sleeve	4" x 15"	12 per box
D-2000	2" Anchor Sleeve	4" x 18"	9 per box
D-2250	2 1/4" Anchor Sleeve	4" x 18"	9 per box

Our Story

Bill Spitzer and Associates, Inc. (BSA) was founded in 1978 by Bill Spitzer, Shirley Spitzer, and Jim Mosebrook with a primary focus on servicing reciprocating compression equipment used in the pipeline, oil and gas, petrochemical, and refining markets. Lincoln Lubrication Systems, ITW foundation products (Previously Philadelphia Resins), and Spitzer Enterprises air filtration systems were the primary product lines. The addition of Alemite Oil Mist systems, Superbolt technologies, specialty ready mix concrete designs, industrial coatings, and anchor bolt

products created opportunities to expand into a wider variety of new markets: food and beverage, heavy and light manufacturing, construction, over the road equipment, liquefied natural gas (LNG), oil well servicing equipment, pulp and paper, power generation, railways, and many more. We continue to support these markets with an evolving portfolio of products and services.

We proudly serve
NM, TX, LA, MS, AL,
GA, SC, & FL

Currently, BSA still employs a small business mindset that started back in 1978; however, BSA has methodically grown and integrated competitive advantages, differentiation, modernization, and technological advancements. Connor Spitzer, 3rd generation, commenced his leadership in 2014 to merge an "old school" mentality with an improved focus continuous process improvement and strategic planning methods. All of these adaptations are performed with one goal in mind, ensuring customers receive the best possible service and support found or available everyday.
